

4G LTE GPS SECURE ALARM PLUS

This 4G LTE GPS Secure Alarm Plus is a rugged IP67-rated tracking and security system designed for RVs, caravans, trailers, and other recreational vehicles. Featuring real-time GPS tracking, remote engine cut-off, wireless alarm integration, and flexible app or key fob control, it delivers advanced protection and monitoring wherever you travel.

4G Live Tracking & Monitoring

Stay connected to your vehicle at all times with fast, accurate real-time GPS updates directly from the mobile app or tracking platform.

Flexible Remote Security Control

Arm or disarm the system remotely using the Bluetooth app or included key fob for convenient everyday protection.

Advanced Multi-Sensor Alarm Protection

Built-in shock, tilt, motion, and PIR sensor support instantly trigger sirens, strobe lights, and security alerts when suspicious activity is detected.

Harsh Environment Ready

Rugged waterproof and dustproof housing with optional external antennas ensures reliable operation for caravans, trailers, RVs.

Everything you need is in one app!

Size: 128*80*27mm

Tracker color: Black

Tracker weight: 120g

Power supply: DC 9V - 50V

Working current: <60 mA (12V)

Sleep current: <3mA

Operating temp: -20°C-80°C

Operating humidity:
5% - 95% non-condensing

Back-up battery: Built-in 450mAh default,
Optional maximum 5000mAh

LED indicator:
3 LED lights, green for GPS status, red for
network status

GNSS module:
GPS / GLONASS / BeiDou / QZSS
Position Accuracy: <2m
Cold Start: <5.5s
Warm Start: <2s

4G Cellular Module:
7670C
4G LTE Bands: B34/B38/B39/B40/B41/
B1/B3/B5/B8
Asia & India
