

4G LTE GPS SECURE ALARM

This 4G LTE GPS Secure Alarm is a smart all-in-one protection device designed for RVs, caravans, trailers, and other recreational vehicles. Arm the system remotely, and if movement, impact, tilt, or unauthorized access is detected, the siren activates instantly while alerts are sent directly to your phone.

4G Live Tracking & Monitoring

Stay connected to your vehicle at all times with fast, accurate real-time GPS updates directly from the mobile app.

Remote Control Security Actions

With the optional remote, you can arm, disarm, activate SOS, or even cut the engine at the press of a button.

Complete Anti-Theft Alarm System

When armed, the device detects suspicious movement or intrusion and instantly triggers a loud siren and immediate alert messages.

Event Detection Alerts

Advanced sensors react to shock, ignition changes, speeding, or power loss, sending instant notifications so you can respond quickly.

Everything you need is in one app!

App store

Google play

SOS emergency button

Remote engine/
fuel cut (optional)

Smart angle-change reporting

Real-time tracking
via app/web

4G LTE
global connectivity

Movement and
ignition detection

Vibration, tilt,
and shock alarm

Power-cut alert
with backup battery

Size: 85*45*17mm

Network: LTE/GSM/GPRS

GPS channel: 66

Tracking sensitivity: -165dBm

Location accuracy: <5 meters CEP

Working voltage: 9-36VDC

GPRS Protocol: Class12, TCP/IP

Time To First Fix (open sky):
Cold status <35s, Hot status <1s

Standby & Working consumption:
5mA~50mA

Frequency(4G+2G): LTE-FDD B1/B2/B3/
B4/B5/B7/B8/B28/B66
GSM :850/900/1800/1900Mhz

Operating temp.: -20°C to +70°C

GSM / GPS antenna: Built-in

G-Sensor: Support

Memory storage: 2000 data

Ignition status detection: Support

OTA: Support

Power interface: 8 or 4 PIN version

Module & Chipset: SIMCom LTE Cat 1
Module / A7670 Series+AT6558R

Back up battery: 200mAh /3.7V
Li-Polymer battery
